

HOME FURNITURE

WHAT WOULD YOU HAVE YOUR FURNITURE SAY ABOUT YOU?

Marion & Diane Tobkin in business over 20 years

Furnishing a room or an entire home is a personal expression of who you are. The best combination is when you put together

elements to serve your needs & satisfy your style as well. Translate what you love to where you live.

Color says a lot in a room. Which colors say welcome? The best color in a foyer is a light or bright color; also the foyer should be well lit to seem inviting and safe. Color can transform. It is one of the easiest ways to turn furniture in to something totally different. Color is the 1st part of the transformation but it's not the whole story. Chosen with loving care and applied with professional finesse ,

color brings emotion to life. It can truly change the look of a room from stiff and formal to welcoming and comfortable.

In the family room, more neutral colors can help provide that soft comfortable relaxing feeling to help you wind down at the end of your busy day. In the bedroom, soft blues and greens will soothe your mind, create a romantic feeling and give you a more blissful sleep. In the kitchen, a bright pop of color gives that dynamic energy that will keep you going when preparing your favorite meals. A sense of endless light on the shortest of days

We have the largest selection of furniture in Rochester. Whether your style is traditional, transitional, contemporary or arts & crafts. We're sure you'll find the perfect furniture to express yourself. A testament to thoughtful planning.
